The Division and the FDIC **HEREBY ORDER** that the Bank, its institution-affiliated parties, as that term is defined in Section 3(u) of the Act, 12 U.S.C. § 1813(u), and its successors and assigns take the affirmative actions as follows:

If the capital ratios are less than the levels required by paragraph 1(a), the Bank shall, within 60 days of the date of the required determination, increase its capital ratio to not less than the levels required by paragraph 1(a). For purposes of this ORDER, Tier 1 capital, Total Risk Based capital, and total assets shall be calculated in accordance with Part 325 of the FDIC Rules and Regulations ("Part 325"), 12 C.F.R. Part 325.

(c) Any such increase in Tier 1 capital may be accomplished by the following:

(i) The sale of common stock and noncumulative perpetual preferred stock constituting Tier 1 capital under Part 325; or

(ii) The elimination of all or part of the assets classified "Loss" as of March 31, 2009 without loss or liability to the Bank, provided any such collection on a partially charged-off asset shall first be applied to that portion of the asset which was not charged off pursuant to this ORDER; or

Should the implementation of the plan involve public distribution of Bank securities, including a distribution limited only to the Bank's existing shareholders, the Bank shall prepare detailed offering materials fully describing the securities being offered, including an accurate description of the financial condition of the Bank and the circumstances giving rise to the offering, and other material disclosures necessary to comply with Federal securities laws. Prior to the implementation of the plan and, in any event, not less than 20 days prior to the dissemination of such materials, the materials used in the sale of the securities shall be submitted to Scott D. Disclosure Section, 550 17th Street, N.W., Washington, D.C. 20429, for their review. Any changes requested to be made in the materials by the Division or the FDIC shall be made prior to their dissemination.

(e) In complying with the provisions of this paragraph, the Bank shall provide to any subscriber and/or purchaser of Bank securities written notice of any planned or existing development or other changes which are materially different from the information reflected in any offering materials used in connection with the sale of Bank securities. The written notice required by this paragraph shall be furnished within 10 calendar days of the date any material development or change was planned or occurred, whichever is earlier, and shall be furnished to every purchaser and/or subscriber of the Bank's original offering materials.

(iii) Management Information System reporting to the Board of Directors on a monthly basis.

(iv) The Bank's policy shall also call for a quarterly written review of depreciated securities in order to evaluate whether the decline in fair value is other-than-temporary.

(v) Such a review shall fully document the methodology, source of the fair value estimate and compliance with SFAS No. 157, "Fair Value Measurements" and related FASB Staff Positions, currently codified at FASB ASC 820-10.

(vi) The quarterly review must identify securities within the scope of Emerging

Issues Task Force Issue No. 99-20 (EITF 99-20), currently codified at FASB ASC 325-40.

(vii) For those securities within the scope of FASB ASC 325-40, other-than-temporary impairment shall be assessed in accordance FASB ASC 325-40 and in accordance with SFAS 115, currently codified at FASB ASC 320-10 and FASB ASC 942-320-50.

(viii) For all other securities with a fair value below amortized cost, other-than-temporary impairment shall be assessed in accordance with SFAS No. 115, "Accounting for Certain Investments in Debt and Equity Securities, currently codified at FASB ASC 320-10 and 942-320-50 and in accordance with other related accounting guidance. Factors to consider include, but are not limited to:

(1) Whether fair value is significantly below amortized cost;

(2) The period of time the decline has existed;

(3) The Bank's intent and the ability to hold the security for a period of time sufficient to allow for any anticipated recovery in fair value;

(4) The presence of downgrades in securities from investment grade to below investment grade, or other sudden and significant downgrades;

(5) The financial condition of the issuer;

(6) Estimated cash flows an investor would anticipate;

(7) An assessment as to whether the decline is attributable to adverse conditions specifically related to the issue, or to specific conditions in an industry or in a geographic area;

(8) A determination as to whether dividends have been reduced or eliminated;

(9) Any failure to make scheduled interest or principal payments;

(10) Changes in tax laws, regulations, or other governmental policies significantly affecting the issuer; and

(11) Forecasts of economic, market or industry trends.

(b) For other securities adversely affected by the factors listed above, the Bank must provide objective and verifiable evidence documenting why it should not use an other-than-temporary classification. The objective evidence must indicate the reasons the decline in value below amortized cost is "temporary" and detail how the decline in value can reasonably be expected to be reversed. Objective evidence supporting "temporary" impairment may include the issuer's financial performance (including such factors as earnings trends, dividend payments, asset quality and specific events), the financial condition and near term prospects of the issuer, and the economic conditions and prospects for the issuer's region and industry.

(c) If the Bank determines that an impairment of a particular investment is other-than-temporary, the credit-related portion of the impairment must be recognized as a loss, through earnings, in the quarter it occurred. The portion of impairment related to other factors must be recognized in Other Comprehensive Income. The estimate of fair value shall be based on the best information available in the circumstances and as described above. The investment's cost basis must be reduced by the amount of credit-related other-then-temporary impairment recognized in earnings. The new cost basis is not adjusted by subsequent recoveries of value at a later date.

(d) The Bank shall document and support the source, methodology, adjustments and assumptions used in applying the fair value hierarchy (Level I, Level II and Level III inputs) as defined by FASB ASC 820-10 to each investment security. This process shall include active solicitation of valuations and bids from independent third parties, such as broker/dealers or pricing services. Management shall be aware of and understand the valuation process used by the third parties, including assumptions and methods used, as well as how the credit-related and non-credit-related portion of the fair value were determined.
