VARIANCE

Pursuant to the authority granted to me by 68 Illinois Administrative Code 1210.240, I hereby grant a Variance to 68 Illinois Administrative Code 1210.235, which requires collection agencies and collection agency branch offices to submit renewal documentation and pay certain renewal fees by the deadline of May 31, 2021. On May 28, 2021, such individuals were granted a variance extending their renewal deadline to September 30, 2021 and then again to October 31, 2021. Such individuals are now granted until January 31, 2022 to complete the renewal process.

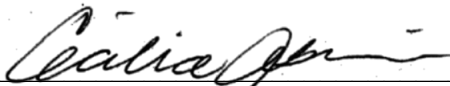

This variance is granted based upon the transition, in the spring, summer, and fall of 2021, to new data and operating systems utilized by the Illinois Department of Financial and Professional Regulation (“Department”), and the Department’s determination that certain licensees did not or may not have received notices and instructions concerning the required renewal via e-mail during this period.

The purpose of this Variance is to ensure that collection agencies and collection agency branch offices whose licenses would otherwise expire on October 31, 2021, do not experience an expired or lapsed license and are not required to take additional steps or pay additional fees to restore their license prior to January 31, 2022.

This Variance is in no way intended to waive or modify any other statute, rule, or regulation concerning the registration of occupational therapists or occupational therapist assistants, nor to extend the active licensing period beyond the expiration date for licensees otherwise required to be renewed by May 31, 2021. Licenses renewed through January 31, 2022, during the extended renewal period granted by this Variance, shall expire at the end of the ordinary renewal period designated by 68 Illinois Administrative Code 1210.235.

I have determined that the provision from which this Variance is granted is not statutorily mandated; no party will be injured by the granting of this Variance; and the rules from which this Variance is granted would, in this particular case, be unreasonable.
